What makes this book stand out -

The 64 Hexagrams: A New Interpretation for the Twenty-first Century

This is not merely a translation of the hexagram statements and the line statements. In the translation, we corrected some mistakes of contemporary translations due to the misunderstanding of the Chinese language. What is more is that we include direct usage of the statements as applied to modern living. It is easy to follow the instructions and gain insight from the interpretation.

Professional Yijing Divination Correspondence Course

Also known as Wen Wang Gua, it does not rely on the interpretation of the original hexagram texts and line texts. The hexagram as well as each of the six lines are assigned by formula to the 12 branches each of which carries one of the 5 elements. Each line is further assigned one of the 5 relationships with the hexagram. The time factor is added by the date of divination. A picture is formed by studying the inter relationship between lines. You will be amazed at the precision of the divination.

Joseph Yu B.Sc. 余若愚 was born during the second world war in a small village in South China. He spent his childhood as a country boy and did not receive any formal education until he came to Hong Kong at the age of eleven. A lot of people suggest to him that he should create a story of learning Astrology and Feng Shui in early childhood from a monk as do many a famous Feng Shui Master. He prefers to tell the truth.

Yu studied Mathematics and Physics in the University of Hong Kong in the early 1960's. He abhorred all kinds of superstition and vowed to destroy such absurd beliefs of ignorant people. He then frequented libraries, trying to find fault with Astrology and Feng Shui from ancient books. The deeper he went into the subject, the more excited he became about the rich legacy of ancient Chinese culture.

Whether or not to become a professional astrologer and geomancer or continue in the fields of mathematics and physics, became a constant dilemma. Astrology and Feng Shui have been viewed as superstition by their skeptics. Astrologers and Feng Shui masters have been linked with fraud for centuries.

Someone wrote in his book, "If more knowledgeable men provide true Astrology and Feng Shui services, the ignorant and fake 'professionals' will vanish." Sharing the same view, Yu decided to provide useful services and correspondence courses at an affordable price.

While Joseph Yu was a mathematics teacher after his graduation, he was lucky to have as his neighbor one old Feng Shui master. This old master was very kind to disclose a lot of secrets of the five arts to him even though he was not one of the old master's apprentices.

In one Chinese New Year party at the old master's home, the master said to his disciples, "This young man, though not officially under my care, has learned more than most of you because he has a logical mind and dares to argue with me on various issues."

The old master passed away a few months later. Joseph Yu did not feel comfortable in the company of the disciples of this good master. He is grateful, but circumstances make it impossible to express his gratitude towards the master who passed on to him a lot of invaluable knowledge.
